

ADVANCED PLACEMENT

AP[®] college-prep courses:
set goals, challenge yourself
discover interests

AP[®]

Minnetonka graduates tell us that AP courses better prepared them for the rigor, writing and study skills needed for future success.

You're ready! Make the most of your high school experience by undertaking college-level AP courses with the support of passionate MHS teachers. It's true: 84 percent of our 2019 graduates took at least one AP or International Baccalaureate (IB) course during high school and 83 percent of AP students scored a 3 or higher on their AP exams (the minimum score needed for college credit consideration).

We offer AP courses in English, world languages, social sciences, history, sciences, mathematics, computer science and the arts. MHS also offers a variety of AP courses through Tonka Online and VANTAGE.

Depending on your AP exam scores and college credit policies, you may earn college credit or advanced standing at most of the nation's colleges and universities.

Research is clear: When you take college-level courses in high school, you are more likely to complete your college degree. AP offers something for everyone. The only requirements are a strong curiosity for the subject you plan to study and a willingness to apply yourself and work hard!

Advanced Placement Quick Facts

29

AP courses offered through a classroom experience, Tonka Online or VANTAGE.

3↑

82% scored a 3 or higher (state average 66.7%) on AP exams.

2,875

“After taking many AP classes in high school, I was able to get a significant number of college credits completed before setting foot on campus. This has created a lot of flexibility in my schedule.”

AP Chinese Language and Culture (Immersion)	9-10
AP Spanish Language and Culture (Immersion)	9-10

“I came in to college with 22 credits, which puts me far ahead of many of my peers. I will actually be sophomore standing next semester, which lets me register for classes before many of my peers are able to. My only regret is not taking AP statistics.”

- Josh '18
